GRAPH-XT for HTBasic Demo
==========================

(c) Copyright Tech Soft GmbH, 2007-2009. All rights reserved.

This is the installation program for GRAPH-XT for TransEra
HTBasic 9.2 and higher.

Version: 1.01.31
Date: 01-Dec-2009

This file contains the latest information about GRAPH-XT Demo.
Please read carefully BEFORE you install the software.

The MS Office Interface for HTBasic Demo is free software and may be
used by any number of users on any number of systems without fee or
obligation, subject only to the terms and conditions laid out in the
license.txt file. This demo includes DPlot Trial v2.2.7.5 from Hydesoft.

The trial version of DPlot is not free software. You are hereby licensed
to use this software for evaluation purposes without charge for a period
of 30 days. After 30 days the DPlot trial version will cease to function.
Unregistered use of DPlot after the 30-day evaluation period is in
violation of U.S. and international copyright laws.

System requirements

GRAPH-XT is designed to run on Windows 2000, Windows XP and
Windows 2003 and Vista. It is an add-on library for
HTBasic for Windows and does not run as a standalone application.
HTBasic for Windows 9.2 and later is fully supported.

Windows 2000 requires 128MB of RAM, 256 MB RAM is recommended.
Windows XP requires 256 MB, Windows 2003 requires 512 MB RAM.
Approximately 50 MB of free disk space is required in order to install
the files.

If the DPlot Graph software from Hydesoft is not already installed
on your computer a trial version will be installed before the GRAPH-XT
HTBasic library will be installed. In case the installed DPlot software
version is older than the required version, the setup program will update
the DPlot software.

Example Programs

After the installation you will find several example programs in the
directory "EXAMPLES".

The example programs can be used as follows:
- Start HTBasic for Windows
- If not yet configured long filenames, enter the following command:
    CONFIGURE LONGFILENAMES ON
- Select the option "Change MSI on Open" in the File menu of HTBasic.
- In HTBasic, Select "File -> Open..." and go to the examples directory
  (e.g. "c:\Program Files\Tech Soft\GRAPH-XT Demo 1.0\Examples")
- LOAD the desired example program, e.g. "DPlot_example1.prg"

- Start the example program (RUN)
- Follow the instructions on the screen

Online Documentation

GRAPH-XT includes comprehensive electronic documentation.
The setup program installs an online help file called "GRAPH-XT Help"
and a pdf manual "User's Manual" within your GRAPH-XT Demo program group.
For the pdf manual the Adobe Reader is required.
